High School Education

ASPIRATION

I want to be a part of something bigger. That looks beyond putting money in people's pockets. That is focused on changing the world into a better place. To create work that communicates beautifully and that is arguably simple and straight-forward. To think before acting. To work with people and not for people. To change the world. And to be a part of this change.

SKILLS

Graphic Design & Brand Communication
Web Design & UI/UX
Digital Design
Front-end Development (*Intermediate*)
